Meherab Hoshen Shehab

Textile Engineering Student at BUFT | Innovating for a Sustainable Future in Fashion & Fabrics | Driven by Technology & Eco-Friendly Solutions.

Mirpur, Dhaka, Bangladesh

Summary

As a passionate textile engineering student, I am deeply fascinated by the interplay of technology and creativity in the world of fabrics and materials. My academic journey is equipping me with a solid foundation in textile design, manufacturing processes, and sustainability practices. I am eager to leverage my skills to innovate and contribute to the future of the textile industry, focusing on sustainable and high-performance materials. Excited to connect with like-minded professionals and explore opportunities for collaboration and growth in this dynamic field.
